It's Mireirin Studios, abetter of everything Slayers that you know and love. (hee) Alas, not everything went the way I'd planned... I didn't have enough time to make anything else for the earthquake charity before time was up. (I wanted a hug pillow, or a XXX key-holder...) So here you have a book like all the others before it... With one exception! The "Grey-Zone" comics! I'm just glad I got them down on paper, no matter what the form. Hopefully next time, we'll finally get to see Lina do the conga! What adorable antics will Sue and Soujirou be up to next? And when will the low-brow jokes ever stop?!

No one knows!
